

ASTRA MONEY STARTER KIT

A Practical Beginner Roadmap to Turn ChatGPT Astra into Useful, Sellable Work

1. TEN MONEY-MAKING OPPORTUNITIES

AI workflow implementation

Lead research support

Research and business intelligence

Data analysis and reporting

Social-media operations

Website and landing-page services

Virtual-assistant operations

Customer-support systems

Digital products and templates

AI automation consulting

2. OPPORTUNITY SCORECARD

Pain	Is the problem real and costly?	___/5
Frequency	Does it repeat?	___/5
Measurability	Can you define a clear output?	___/5
Reviewability	Can a human check the result?	___/5
Buyer access	Can you reach likely buyers?	___/5
Skill fit	Can you own quality?	___/5

3. REUSABLE ASTRA JOB BRIEF

ROLE - who should Astra act as?

OBJECTIVE - what exact outcome is required?

CUSTOMER - who receives the work?

CONTEXT - what facts/background matter?

INPUTS - what files, notes, data, or links are provided?

CONSTRAINTS - what must be avoided or followed?

WORKFLOW - what steps should Astra perform?

QUALITY STANDARD - what makes the result acceptable?

HUMAN CHECKPOINTS - what must a human verify or approve?

OUTPUT - what exact deliverable should be returned?

Core rule: Do not sell AI. Sell the useful result created by the workflow.

4. FIVE STARTER WORKFLOWS

Research brief

Question -> sources -> Astra organizes -> human verifies -> concise brief.

Lead qualification

Prospect notes -> structure fit -> human validates -> prioritized brief.

Weekly report

Raw metrics -> Astra summarizes -> human reconciles -> management report.

Content batch

Audience + evidence -> drafts -> human fact-checks -> approved queue.

Proposal draft

Discovery notes + scope -> draft -> human confirms scope, price, claims and terms.

5. YOUR FIRST 30 MINUTES

- 1) Choose one repeated customer problem. 2) Write the Job Brief.
- 3) Run one small sample. 4) Review the output. 5) Improve the brief.

6. FIRST-CLIENT CHECKLIST

1. Pick one customer type and repeated problem.
2. Define one concrete deliverable and what good looks like.
3. Create a small sample and a narrow offer with scope, deadline and price.
4. Find relevant prospects through legitimate channels; avoid spam or misleading claims.
5. Confirm scope, payment terms and approvals before work.
6. Deliver with human quality control and ask for factual feedback.

7. FIRST-INR 10,000 TEST

Not a promise - a test target. Example only: 4 x INR 2,500 = INR 10,000.
